

# API Testing Documentation with ReqRes

## 3. PUT Request

- **Description:** This request updates the details of a user.
- **Request URL:** <https://reqres.in/api/users/2>
- **Method:** PUT
- **Request Body:** This request should include the new details of the user, like:  
json.

```
{  
  
  "name": "Jane Doe",  
  "job": "Project Manager"  
}
```
- **Expected Outcome:** This request should return a status code of 200, indicating that the user's details have been updated.
